-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1) The information disclosure statement filed 12/08/04 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Claim Objections

2) Claims 13, 14 are objected to because of the following informalities:

Claim 13 line 5, "the degree" should be --a degree--;

Claim 13 line 6, "the longitudinal axis" should be --a longitudinal axis--;

Claim 19 line 2, "the vehicles accelerator" should be --a vehicles accelerator--;

Claim 20 line 2, "the parking brake" should be --a parking brake--. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3) The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4) Claims 11-12 and 16-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Polzin (DE 10053608). Please note that US 6681168 is an English language equivalent.

In re claims 11, 16 and 18, provides a method of regulating brakes in a vehicle when driving off on a roadway having a first portion with a higher coefficient of friction than a second portion, comprising: identifying that the vehicle is driving off on the roadway having a first portion with a higher coefficient of friction than a second portion (501); and increasing the brake pressure on a driven wheel on the portion of the roadway having the higher coefficient of friction. (Col. 3 lines 48-60)

IN re claims 12 and 17, see F2 and figure 4.

Allowable Subject Matter

5) Claims 13-15 and 19-20 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims and if rewritten to correct the claim objections.

Conclusion

6) The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Miyazaki, Okubo, Lindemann, Howell, Latarnik et al, Yasui et al, Struck et al, Kuwana et al and Polzin all teach a brake control device for controlling the vehicle when on a split friction surface.
